Covering the Roads With a Great MONEY SAVING MOTOR OIL

How many miles do you drive your car in a year? Let's say 12,000 miles. That's a fair average in Canada.

The average mileage for ordinary motor oil is 500 miles before changing.

The average mileage for Wakefield CASTROL is 2,000 miles!

The average musage for tw akehedi CASTROL is 2,000 miles! Change your oil every 500 miles and at \$1.60 per gallon (hwe average cost of the average oil your year's oil bill is \$38.40. Change your Carroll every 2,000 miles and at \$2.00 per gallon your year's labrication costs you only \$12.00. A saving of \$26.40!

And on top of that you are treating your engine to the finest motor oil the world has yet produced; protecting the engine against undue wear and friction; guaranteeing yourself cool, smooth, quiet, trouble free driving.

Watch for the Castrol Sign

Thousands of users of Wakefield Castrol Motor Oil have found that in wet weather they can put their cars over the worst stretch of gunbo road you ever saw (mile after mile in medium gear—engine racing half the time) and the engine keeps cool and gives ALL THE POWER, thanks to Gastrol in the crank
